NOTES:

The "regular" ranking is calculated by subtracting the individuals "Win Percentage" from 100.

Any handicaps shown with an orange background have been adjusted because the individual has played less than 9 games to date. The adjustment is based on the individuals "Ranking" figure in TableTennis365. This may be inaccurate for new players, or players who only play in the Bury league.

If you believe the handicap figures are unfair for your team, or the opposition, please get in contact and suggest a modified figure with your reasons.
