This applies to only the handicap competition. The first team that a player plays for, becomes the only team that he can play for in this competition. A player cannot switch from an A to a C team or a B team to an A team. He can only play for that one team that he first started with.

Starting positions for the handicap games are based on the difference between the individual player's handicaps. If both players are based in the same division the starting positions are defined by columns 3 and 4 in the above table. If one player is in the premier division and the other in the first division then a small extra allowance is added from column 5 to the first division player's starting position as in columns 6 and 7. In the rare circumstance that a first div player has a lower handicap than a premier div player, then use columns 3 & 4 but then reduce the premier players start by the figure in column 5. (The Handicaps, as per 2015 AGM ruling, means that a player has to win a minimum of 4 points)
