

CONSOLATION HANDICAP CUP SCORE SHEET

The match should normally be played on the home team's normal night. Before any player unlisted in handicaps can play, a handicap must be got from the organizer. At the start of the match, each team will put its players in any order on its own scoresheet. Then both scoresheets will be brought together. Each tie is the best of three 21-up games. In each game the stronger rated player or doubles pair starts at nil and the weaker rated player or pair starts at the difference in the handicaps. The handicap of each doubles pair is their average, with any halves rounded down. Any queries should go to the Cup Matches Secretary, Mary Nicholls, 01277 890209, 07929 600672, marynicholls@talk21.com
