Space and playing space minimum levels

- To accommodate up to six players, you must have a space that is a minimum of 55 sqm (this 'space' includes the playing area and any surrounding areas around the playing area where people may sit), for example 10m X 5.5m or 9m X 6.5m. For multi-purpose venues the court size (playing area) should be at least 9m X 4.5m, as long as the whole space for the match meets the 55 sqm guidance. For one table venues the dimensions of the space may vary, as long as the space is a minimum of 55 sqm and the venue can meet all social distancing and hygiene guidance set out by the Government and Table Tennis England.
