**Cup Rules**

Each team match consists of <b>9</b> individual matches each of two games (up to 21), thus the value of each player's handicap is multiplied by <b>6</b> .	
<b>Sample Handicaps: Team A/B/C:</b> A+I,B+I,C+4 <b>Team X/Y/Z:</b> X+8,Y+II,Z+10	<b>Handicap Start: Team ABC has 6+6+24=36    Team XYZ has 48+66+60=174</b>
Should the final result be a draw, the last two players will play one game and the score plus individual handicap will be added to the totals to provide a result. If there is still a draw then the players who played in match 8 will play one game and so on until a result is achieved.	

*It is the responsibility of the **Home** team to ensure that this score sheet is posted immediately.*
