To work out the "overall start":
 For each individual game subtract away team player's handicap from home team player's handicap
 This gives Handicap difference
 Use Handicap Start Table to find Start per set
 Double the Start per set figure to give Start per game
 Add up all Start per game figures to give Overall Start
 Note: if Overall Start is negative then put figure in Away Start Total
 Games comprise 2 sets to 21 - no deuce.

NOTE : this year handicaps are based upon which Division the opponents are originally registered with.
 A Division 1 player cannot give more than 15 points start to a Division 1 or 2 player
 A Division 1 player cannot give more than 16 points start to a Division 3 player
 A Division 1 player cannot give more than 17 points start to a Division 4 player
 A Division 2 player cannot give more than 15 points start to a Division 2 or 3 player
 A Division 2 player cannot give more than 16 points start to a Division 4 player
 A Division 3 player cannot give more than 15 points start to a Division 3 or 4 player
 (except if a division 4 player has a negative handicap and then its a 16 points start)
 A Division 4 player cannot give more than 15 points start to a Division 4 player
